Day 1 (July 27)

For breakfast, I had bananas, apples, fruit bags, and cereal. After that, I visited Stonehenge, which was really impressive. I talked a lot with Mr. Chris while I was there, and he told me many interesting things.

At dinner, I spoke with many people, and it was exciting to talk about movies and cars. I also thought Mr. Chris's car was very cool.(K.A.)

Day 1 (July 27)

This morning, I ate breakfast. I had bacon and toast, and they were really nice. After breakfast, I took some lessons and learned about English traditions. I was able to see many examples, including fish and chips.

Later, I played baseball with gentlemen and ladies, and I enjoyed talking with many people. For dinner, I had spicy chicken. It was very hot, but I liked it a lot. It was really delicious.

I'm looking forward to tomorrow. Today was amazing. My favorite food is spicy chicken, and I think I like spicy food now.(M.Y.)

Day 1 and 2 (July 27–29)

Yesterday, we arrived at London Heathrow Airport. It took about 14 hours to fly from Tokyo to London. The UK is cooler than Japan.

Eton is near London Heathrow Airport, so many planes were always flying overhead.

First, we played traditional sports on Eton College's playground. It was bigger than I thought.

Second, we walked around Eton. Eton has many traditional buildings. Especially, Eton School Yard is very cool. It is amazing because it is not something you can find in Japan.

Finally, tomorrow we are going to Stonehenge, so I'm looking forward to it.
